Sir:

The Examiner's attention is directed to the reference which is listed on the attached Form PTO/SB/08B and a copy of which is attached. Citation of this reference is respectfully requested.

In accordance with 37 CFR 1.97(c) and (e)(2), the undersigned hereby certifies that no item of information contained in this information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application and, to the knowledge of the undersigned after making reasonable inquiry, was known to any individual designated in §1.56(c) more than three months prior to the filing of this statement.

The cited reference is part of the dissertation of Mauri Aikio and discusses in great detail optical considerations for use in prism-grating-prism imaging spectroscopy. The reference is clearly focused on the optics and glosses over the processing required to analyze the collected data. Specifically, the reference mentions employing a computer to analyze the data. However, there is no mention of employing multiple processors to process the spectral

data. As such, the reference does not teach or suggest each and every limitation claimed in the pending application.

No concession is made that these documents are prior art, and Applicant expressly reserves the right to antedate the documents as may be appropriate.

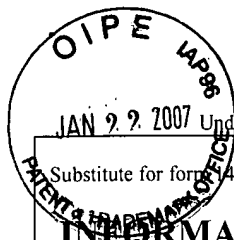

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'TJ Otterlee', written in a cursive style.
